

ERIC-ISMS

{November} Thanksgiving Month and a time to reflect and be Grateful. This month also brings back memories of fall activities growing up...

When I was in Junior High School – most of my classmates were involved in sports, band, etc – I was also drawn to another activity that would be the most influential in my life – CHESS!

My 7th Grade English teacher, Sister Culbert, was one tough cookie! And I was not the best student – but Sister C encouraged me to join the Chess Club and I was soon drawn into the game!

My school was scheduled to go to the district tournament at Loogootee High School. I was assigned to the B Team - First Chair - and was So nervous! But Ready!

Also, Note: we were all told to bring our own sack lunch!

The morning went well – The B team was victorious as well as our A Team! But at lunchtime, tragedy struck! Kevin Kelly – our star chess player – cut his hand on his can of SPAM! He had to be rushed to the hospital and Sister C told me I was being PROMOTED to the A Team! Even with all that PRESSURE – I was able to Win my match which led our team to Winning the entire tournament!

After that day – I looked at Sister Culbert through a different lens. She was the one that saw potential in me – encouraged me, provided discipline, and pushed me to keep going! To this day, I will be forever grateful for her skills as a teacher and mentor.
